Concord/Alewife Planning Study

With the completion of the Citywide Rezoning and the follow-up rezoning of Eastern Cambridge, Cambridgeport (SD-8) and Alewife (SD-4/4A) in 2002, the areas of Cambridge known as the Quadrangle (from Concord Avenue over to the railroad) and the Triangle (from the railroad over the Alewife Reservation) remain the last large commercial areas of Cambridge which are in need of more detailed planning study. These areas represent the last large industrial areas of Cambridge with significant development potential. Key issues to be addressed in this study include appropriate mix

of uses; access and traffic; possible city uses (e.g. DPW Yard); and the character of future development.

The study is proceeding in a similar fashion to the recently completed ECaPS Study. An appointed committee is working with the Community Development Department and a consultant team have developed draft zoning and non-zoning recommendations with emphasis on promoting a vital development pattern which is consistent with the overall goals of the Citywide Rezoning. These goals include careful management of traffic growth and impacts, increased incentives for housing and affordable housing, and support for important avenues of economic growth for the city.
